

FREQUENTLY ASKED QUESTIONS

WHAT IS TESLAFormer™ TECHNOLOGY?

TESLAFormer™ uses Functional Magnetic Stimulation (FMS) to stimulate muscle contraction which is much higher than what typically the body can achieve through exercise.

HOW DOES TESLAFormer™ TREATMENT FEEL?

TESLAFormer™ is a highly tolerable treatment. The sensation is new to most patients, contracting muscles at a fast and effective rate without causing discomfort. No pain management is involved in the treatment.

IS THERE ANY DOWNTIME?

TESLAFormer™ is an in and out procedure, non-invasive and no downtime. Treatments take from 30 minutes and patients can return to their normal routine after their treatment.

AM I A GOOD CANDIDATE FOR TESLAFormer™?

TESLAFormer™ is suitable for anyone who wants to tone and strengthen muscle.

Best results are seen from people who maintain relative fitness and a healthy lifestyle.

TESLAFormer™ ADVANCED FUNCTIONAL MAGNETIC STIMULATION TECHNOLOGY

- > Non-surgical and non-invasive
- > With no incisions or injections
- > No downtime
- > Builds abdominal muscles and improve muscle tone
- > Creates lift in the buttocks/gluteal muscle toning
- > Fully customisable treatment

FUNCTIONAL MAGNETIC STIMULATION FOR BODY CONTOURING

STEP 1

Pre-treatment – make sure that you have not eaten within 2 hours (similar to exercise). On the day of the treatment, you are advised to wear comfortable clothing which allows flexibility for correct positioning during the treatment.

STEP 2

With your clothes on, the TESLAFormer™ paddle fits closely pressed on the targeted muscle area, such as your abdomen, thighs, or buttocks. The TESLAFormer™ produces electromagnetic waves that cause muscle contractions.

STEP 3

TESLAFormer™ treatment sessions typically take 30 minutes. There is no downtime and you can resume normal activities following the treatment. Your practitioner will help you create a treatment plan catered to your desired goals.

In some circumstances, TESLAFormer™ treatment might need to be postponed. You should seek medical advice if any of the following apply to you:

- You are pregnant
- You have complete muscle tear near or at the site of treatment
- Implants made of metal in the site of treatment
- Open wounds at or near the site of treatment
- Cardiac arrhythmia

TESLAFormer™ AREAS OF USE

- Neuro-physiotherapy
- Musculoskeletal strengthening
- Increased blood circulation
- Rehabilitation of sports injuries
- Muscle toning and relaxation
- Pain relief

EFFECTIVE AND DURABLE

IMPROVEMENTS AFTER A FEW SESSIONS

SAFE AND PAINLESS

RESULTS ARE SUPPORTED BY SCIENTIFIC STUDIES

NON INVASIVE

EFFECTIVELY STIMULATES MUSCLE TISSUE WITHOUT DIRECT SKIN CONTACT

EUROPEAN TECHNOLOGY

RESULTS YOU CAN SEE AND FEEL

TESLAFormer™ uses Electromagnetic Energy to stimulate muscle contraction equivalent to 50,000 contractions in one 30 minute session.
